Education

We design and cater complete education furniture to enhance the learning spaces to transform into an innovative & collaborative environment. We offer versatility & high quality service throughout all levels of education.

OUR KEY BRANDS

DECORIA

ArmstrongFlooring™

Commercial Modular Carpet Tiles

Material: Made from nylon fibers, which are highly durable and resilient compared to polyester or polypropylene.

Usage: Common in offices, retail spaces, hotels, schools, and healthcare facilities because they are easy to install, replace, and maintain.

Advantages of Nylon Carpet Tiles

Durability & Resilience

Nylon has excellent crush resistance and bounces back even in high foot-traffic areas.

Stain Resistance

Modern nylon tiles are often treated with stain-resistant coatings.

Design Flexibility

Wide range of colors, patterns, and textures. Can be installed in different layouts (monolithic, quarter turn, ashlar, herringbone).

Typical Specifications

Size: 50×50 cm, 60×60 cm, or planks (25×100 cm).

Pile Fiber: 100% solution-dyed nylon.

Backing Options: PVC, bitumen, cushion backing, or eco-backing

WOODEN FLOORING

LVT (Luxury Vinyl Tile)

Transform your space with Luxury Vinyl Tile (LVT) – the perfect blend of beauty, durability, and comfort. Designed to replicate the natural elegance of wood, stone, or marble, LVT brings luxury within reach.

PRIDE
SOLUTIONS LLC

- Elegant Designs – Realistic textures and finishes that match any décor.
- Durable & Long-Lasting – Scratch, stain, and wear resistant.
- Waterproof Options – Perfect for kitchens, bathrooms, and commercial spaces.
- Comfort Underfoot – Warmer and softer than traditional tiles.
- Easy to Maintain – Just sweep and mop for a fresh look every day.
- Whether for your home, office, or retail space, LVT is the stylish, practical, and cost-effective flooring choice

Why Choose LVT?

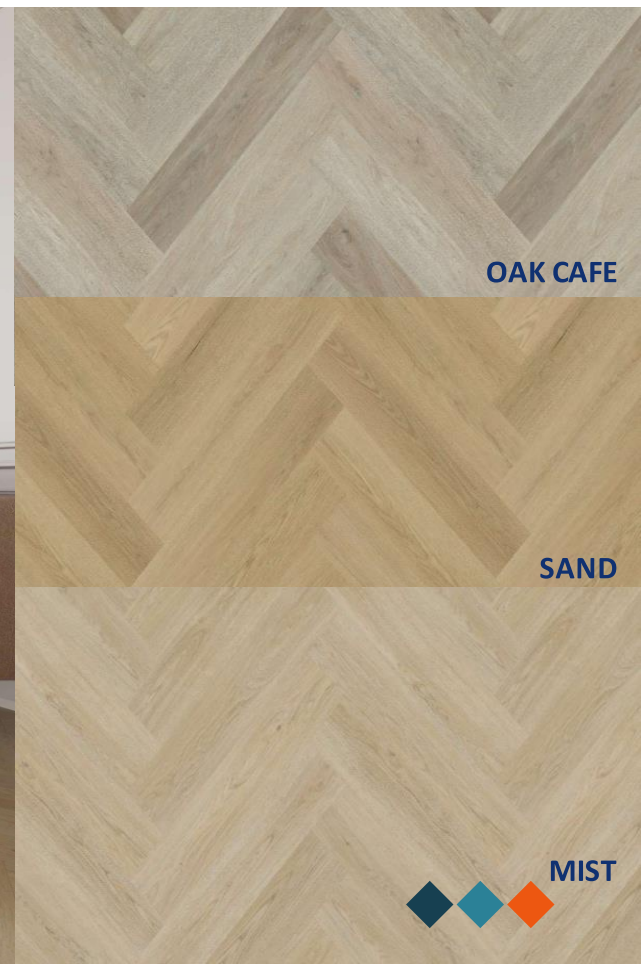

- Realistic wood, marble & stone designs
- Waterproof & scratch-resistant
- Soft and warm underfoot
- Easy to clean & maintain
- Perfect for homes, offices & retail spaces
- Bring luxury into every corner of your space

SPC(Stone Plastic Composite Flooring)

SPC flooring (Stone Plastic Composite flooring) is a modern, highly durable flooring option widely used in both residential and commercial spaces. It's part of the luxury vinyl flooring family but is engineered to be even stronger and more stable. Here's a detailed overview:

What is SPC Flooring?

SPC flooring is a rigid core vinyl flooring made from a combination of:

- Natural limestone powder (stone)
- PVC (polyvinyl chloride) resin
- Stabilizers

This mixture is compressed under high pressure to form a dense, rigid core. The result is a flooring solution that looks like wood or stone but is much tougher and more dimensionally stable

Key Features & Benefits

100% Waterproof – Can be installed in kitchens, bathrooms, and laundry rooms.

Extreme Durability – Highly resistant to scratches, dents, and impacts.

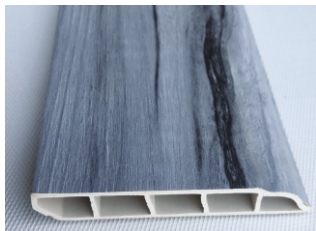

Stability – Doesn't warp or expand easily, even in humid or hot climates (great for UAE).

Realistic Designs – Advanced printing makes it look like natural wood, marble, or stone.

Easy Installation – Click-lock system makes it DIY-friendly, with no glue required.

Low Maintenance – Simple sweeping and mopping is enough.

Comfortable – Backing layer reduces noise and adds softness underfoot.

RAISED FLOOR

Raised flooring, also known as access flooring or raised access flooring, is a type of flooring system that creates an elevated floor above the building's original concrete slab. This space, called the plenum, is typically used to run cables, wiring, plumbing, and HVAC ducts in an organized and accessible way. Raised flooring is widely used in offices, data centers, control rooms, clean rooms, and IT facilities
